

Dulce Torres  
May 5, 2011.

I learned about cows that they give milk for  
ten months. A cow gets a rest of giving milk for  
two months. The cows eat grass and drink water.

Compton Unified-T. Jefferson

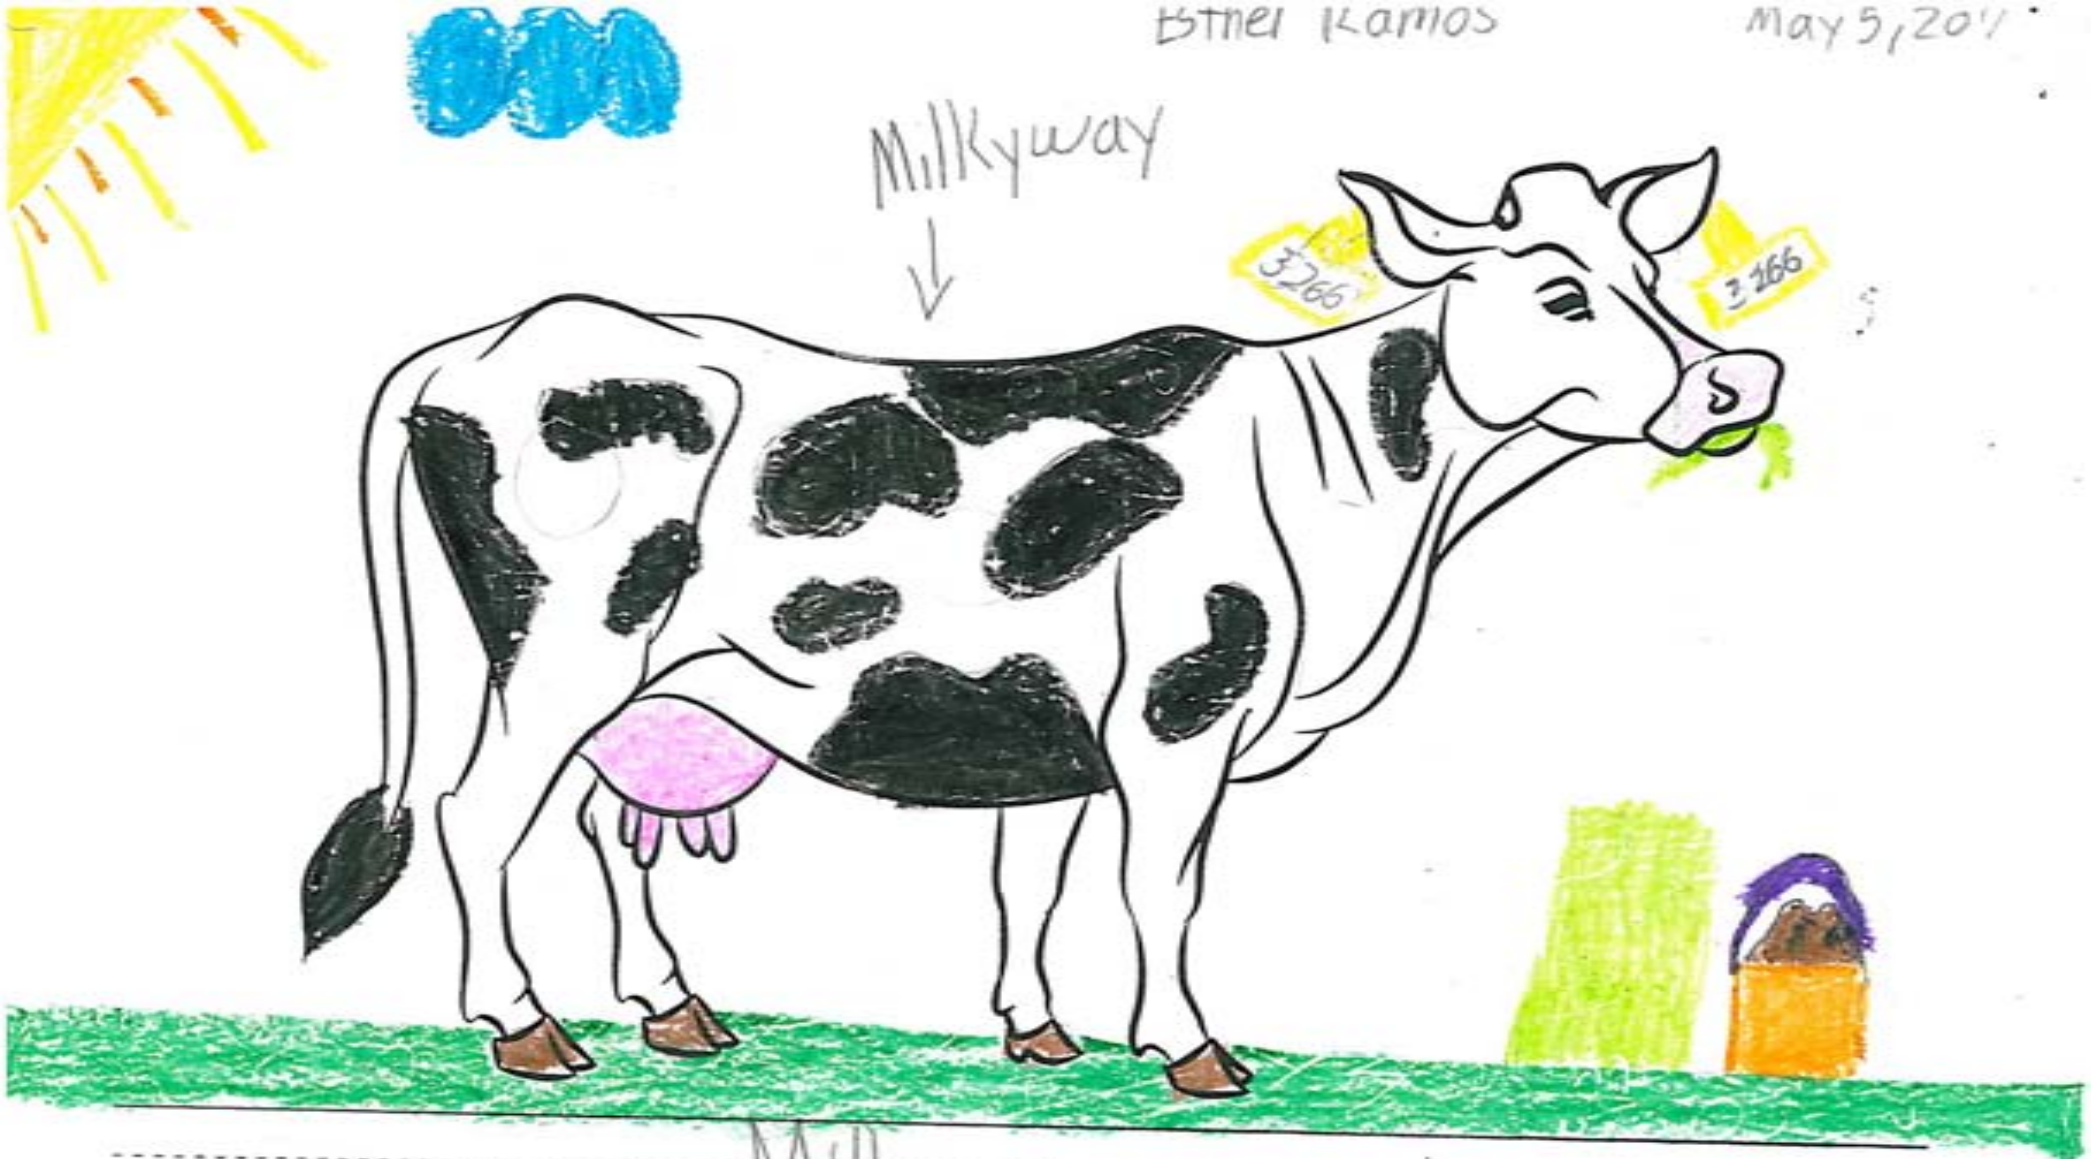

I learned that a cow can weigh fourteeh hundred  
pounds and that it gives milk. you can make yogurt,  
cheese, and sour cream. It eats alfalfa.

May 5, 2011 Milky Way

The cow weighs 1400 pounds. It eat green hay.  
The cow's tail moves all around to make  
the flies go away. The is black and white.

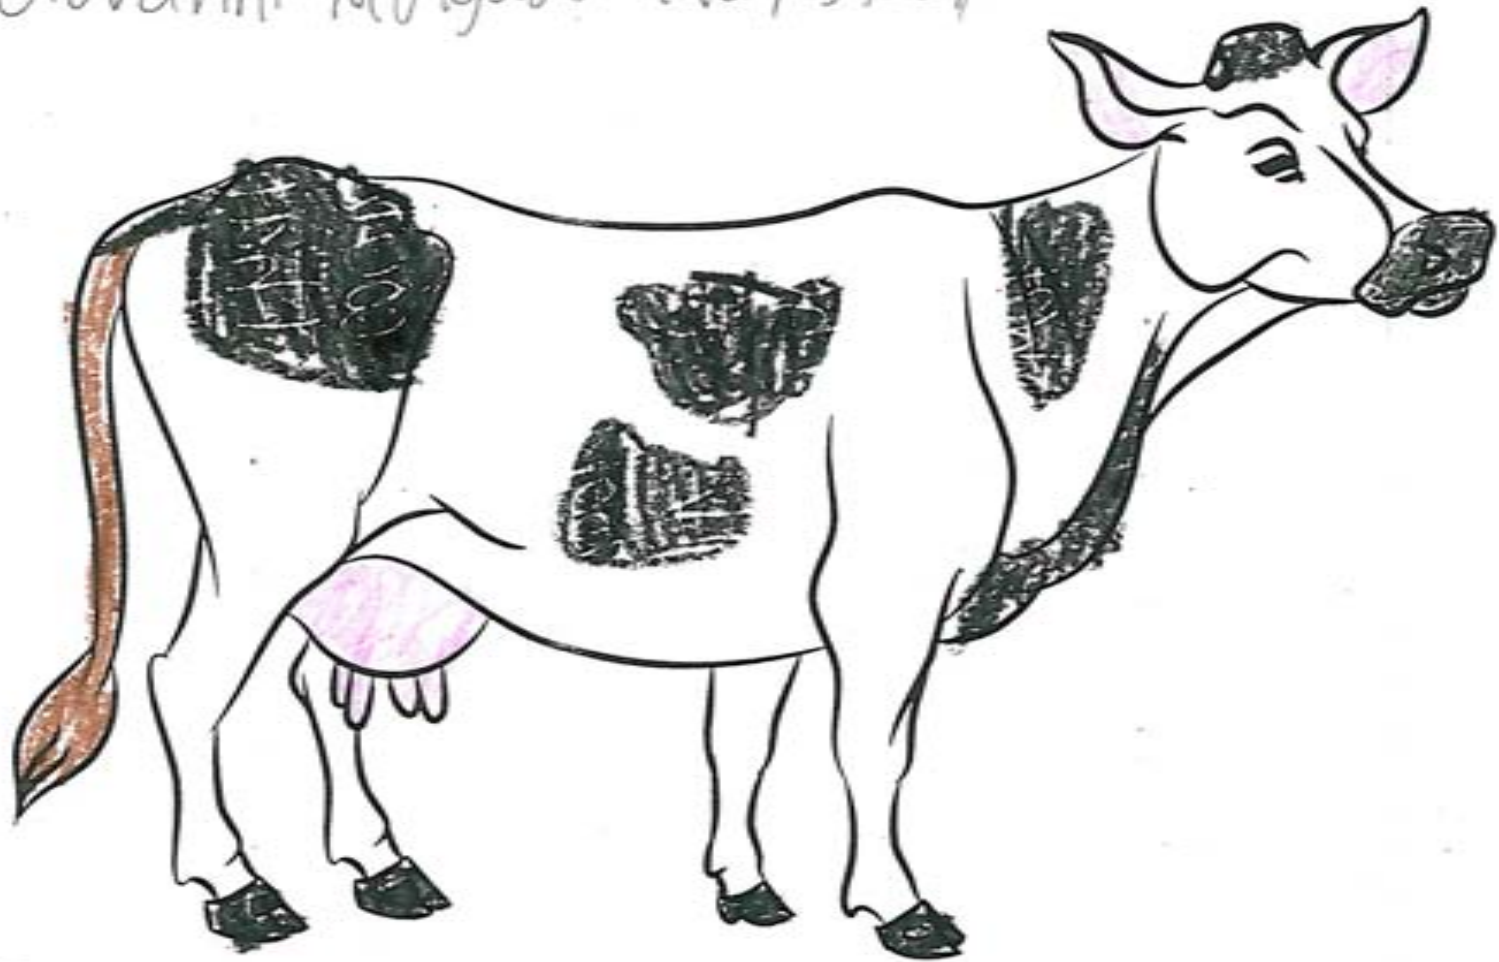

Milkyway

Today I learned that Milkyway

I learned about the cow that it has one stomach and she has four parts inside her stomach. She weighs 1,400 pounds. When she was

Giovanni Mulgado May 5, 2011

I learned about the cow that it gives milk for ten months. Also she can't give milk until she has a baby. It uses
