

Milkyway

My class went outside to
see the cow Milkyway.
She is so awesome.

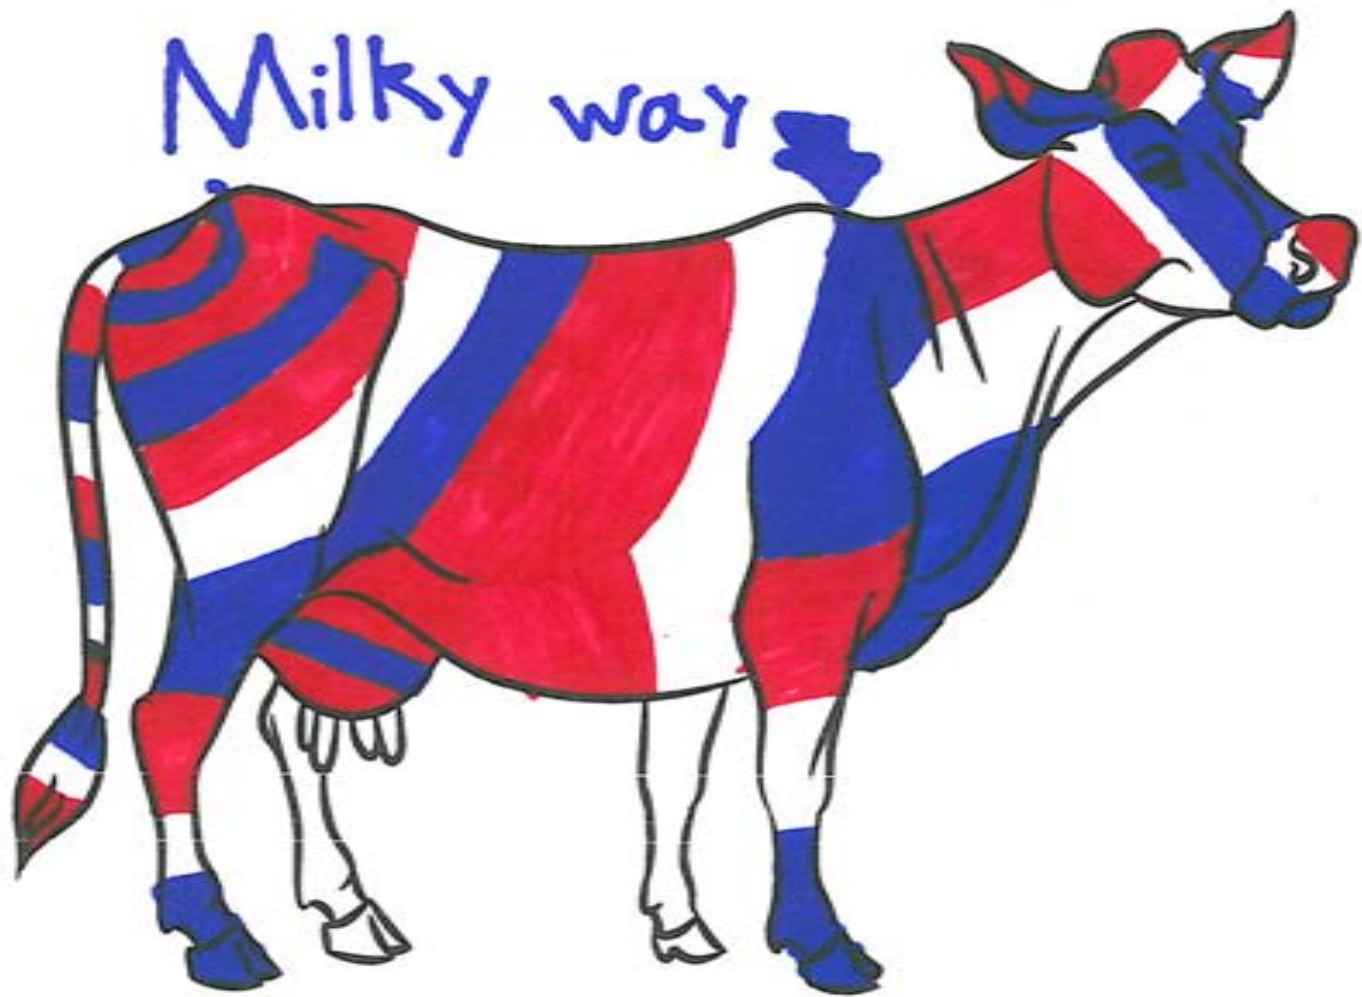

Lizobella

Milkyway
↓

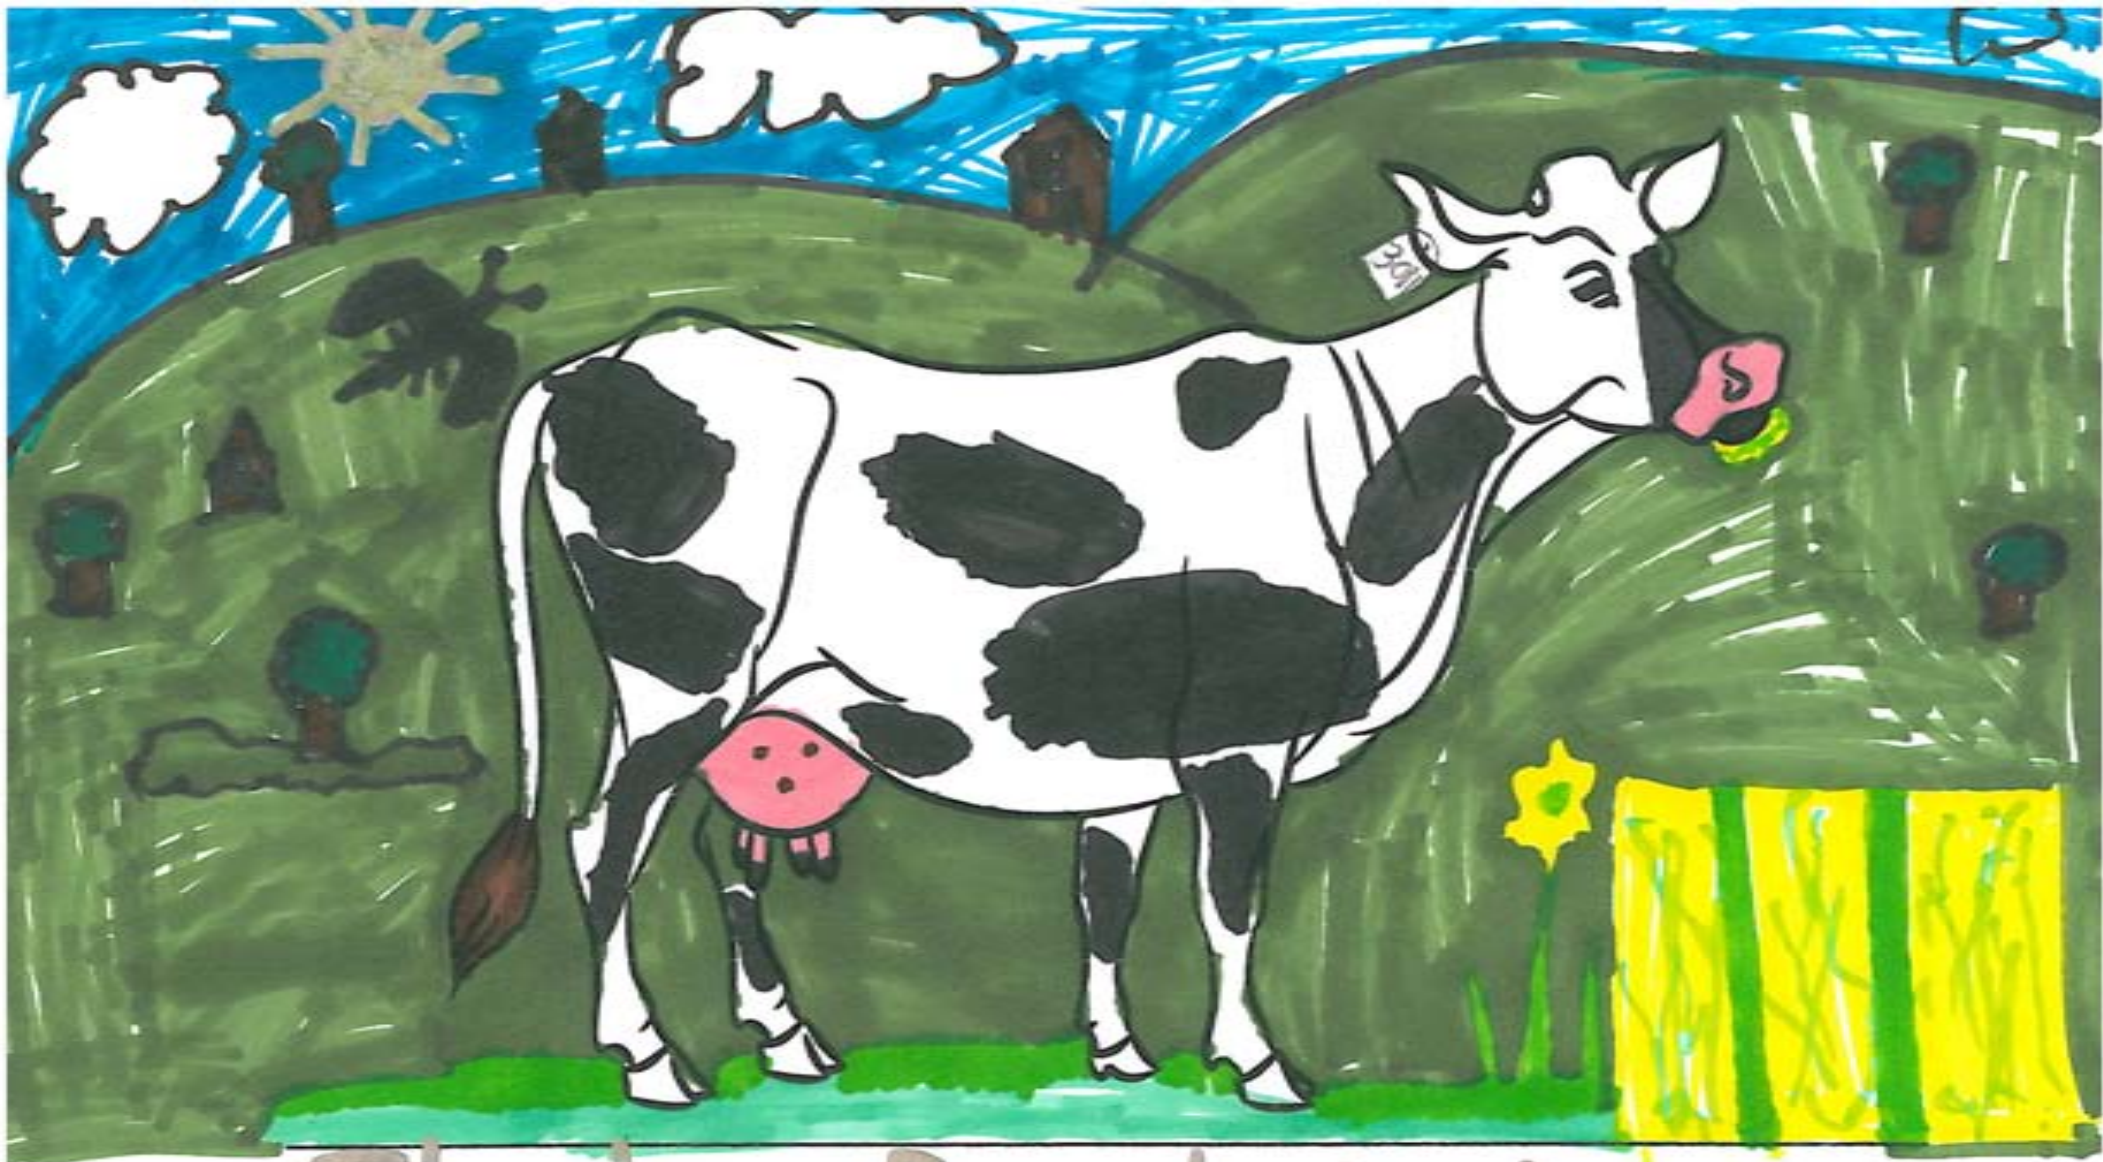

A cow has 1 stomach and 4 chambers. You will need to milk a cow twice a day.

Milky way

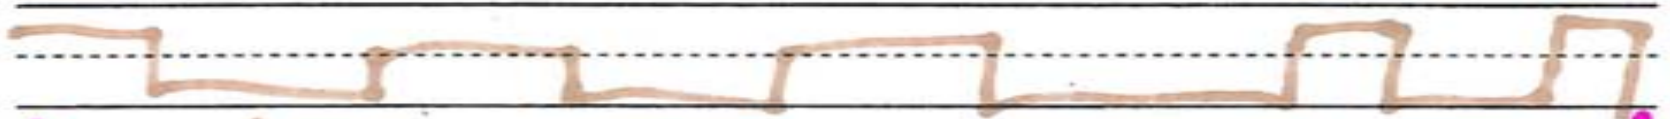

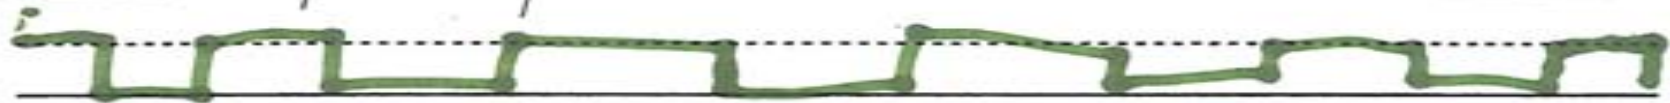

The cow that we saw
was asome, fantastic, and
wonderful the cow had four
chambers and the cows nails are much
thicker than ours.

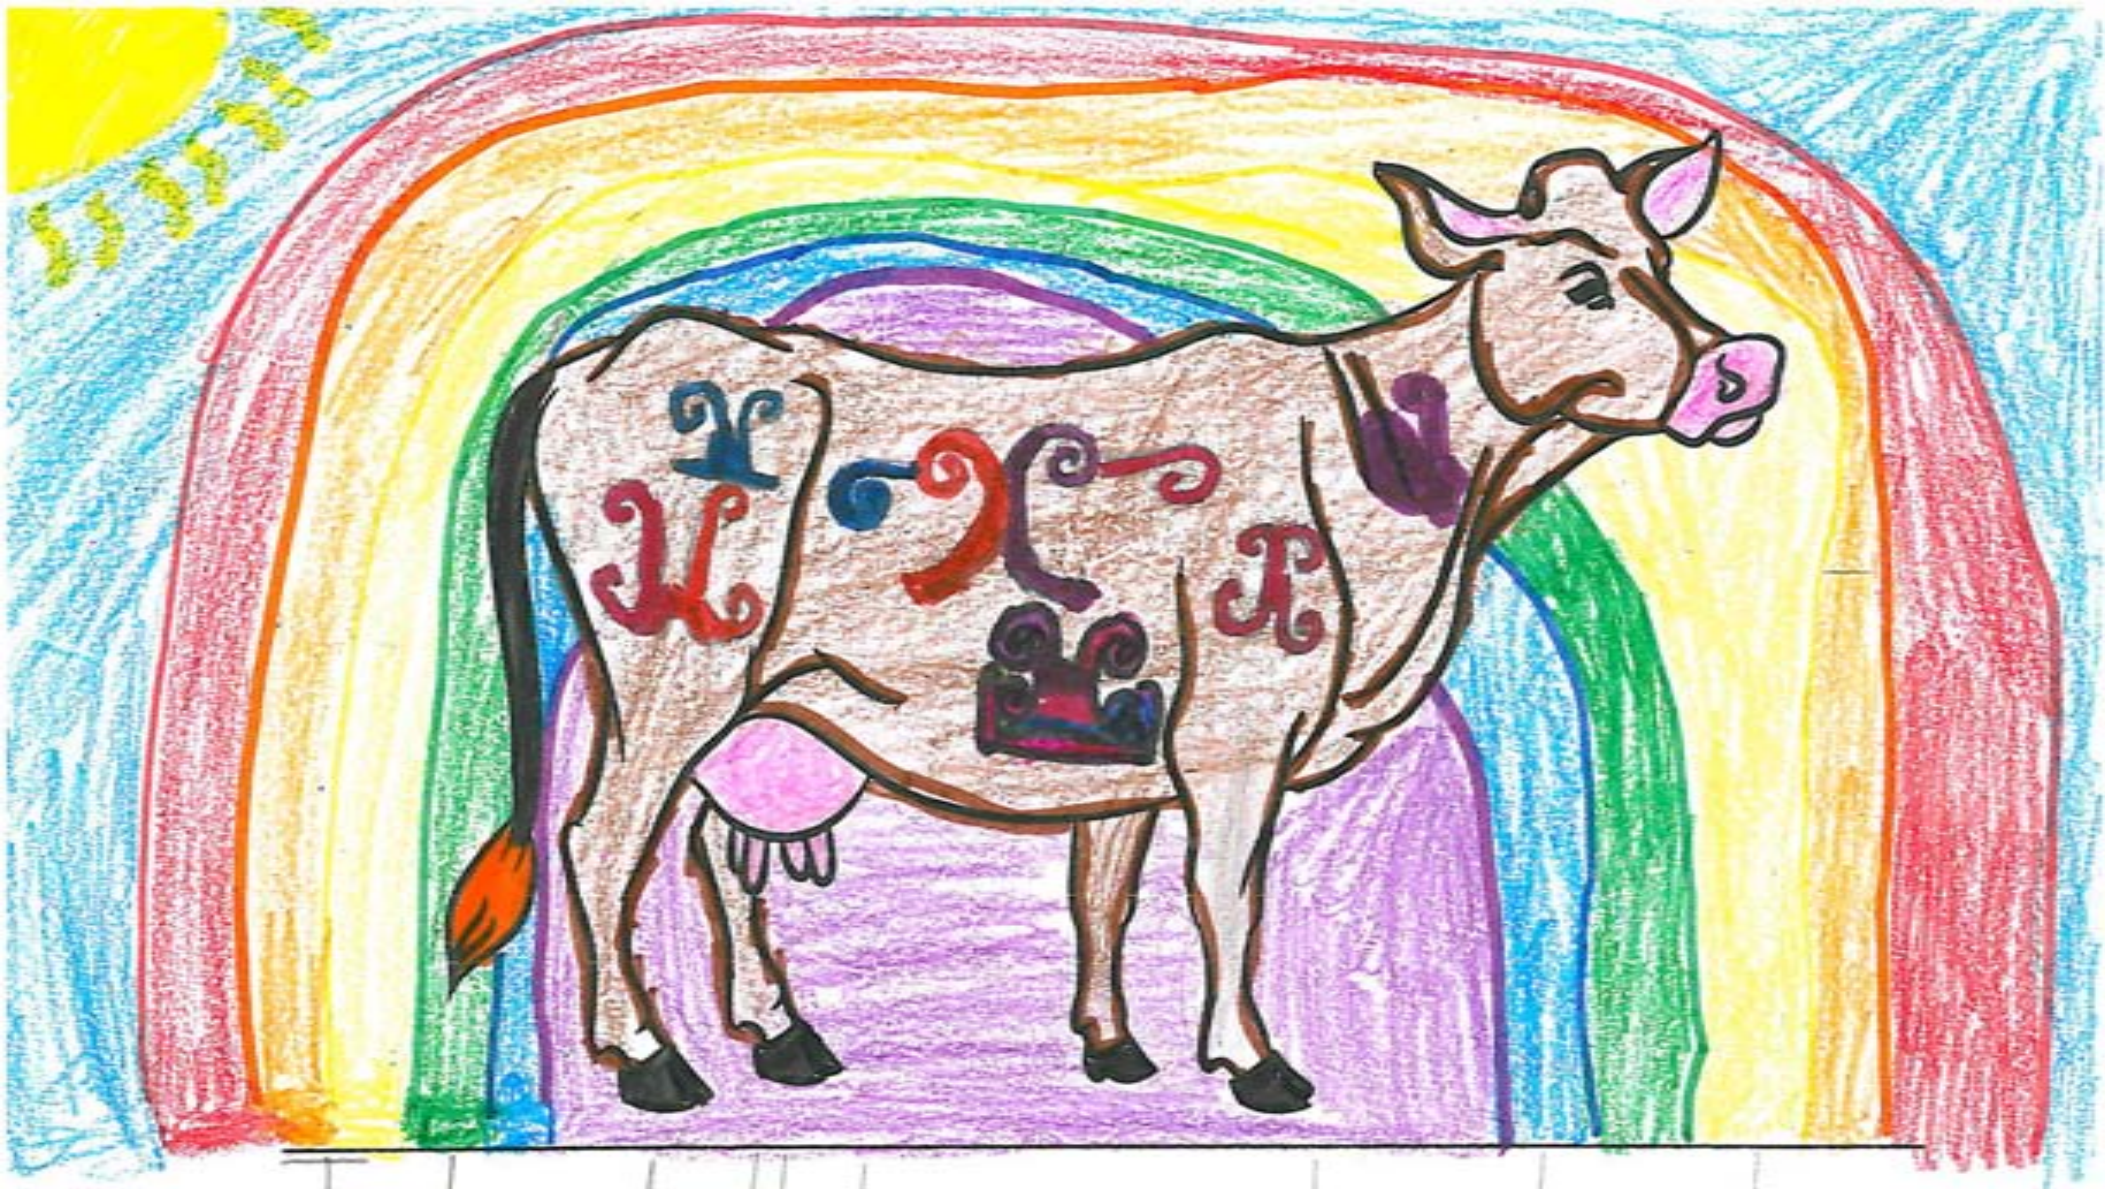

Thanks for bringing
Milk yway.

Milkyway was so cool!

I learned that cows have to chew
their food twice. Plus, cows drink
36 gallons of water every day.

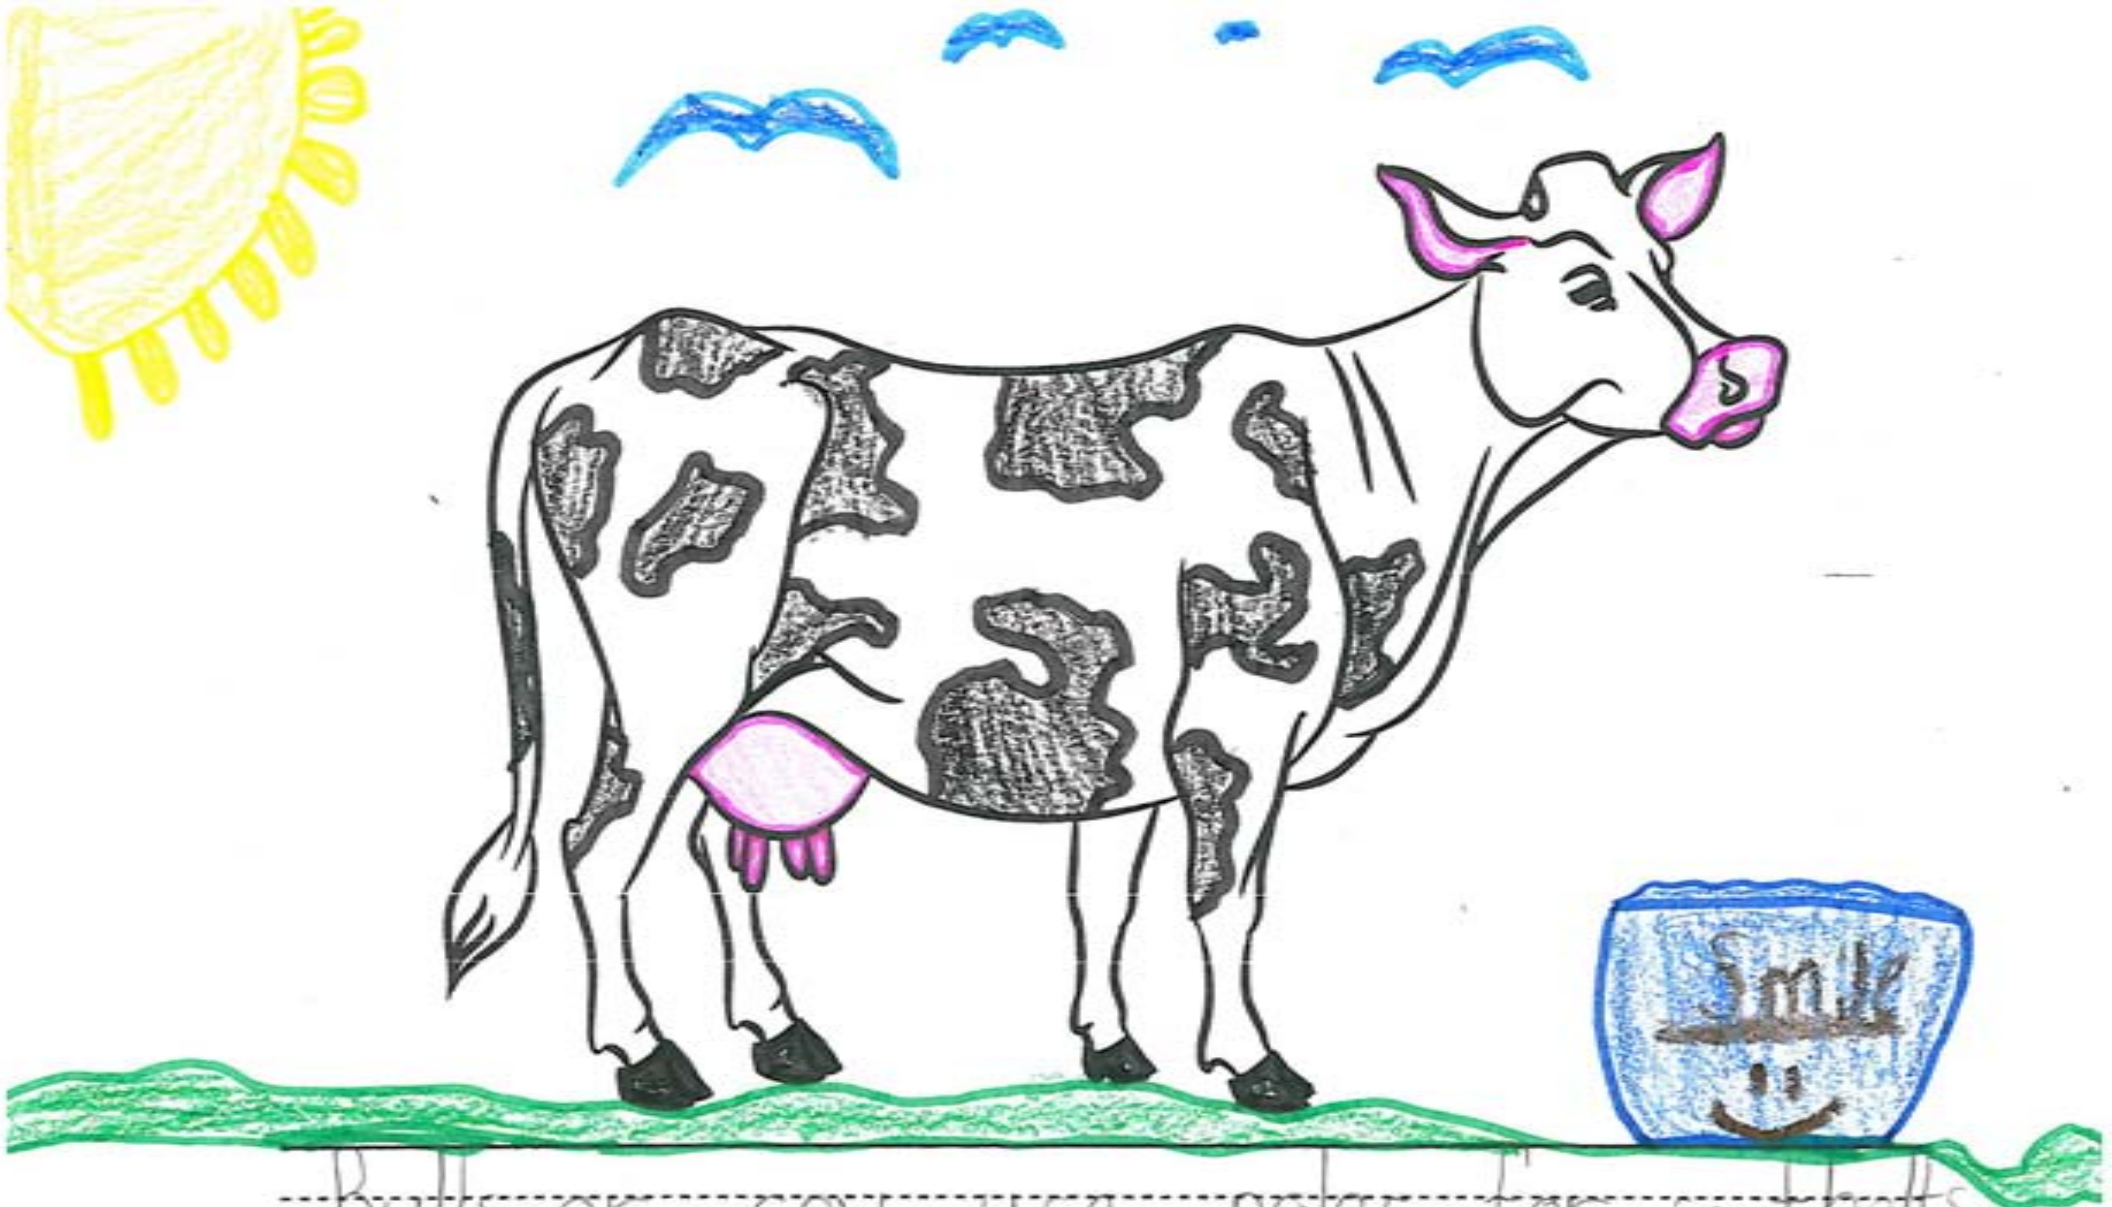

I learned that a cow chews
from side to side.

Rainbow

COW

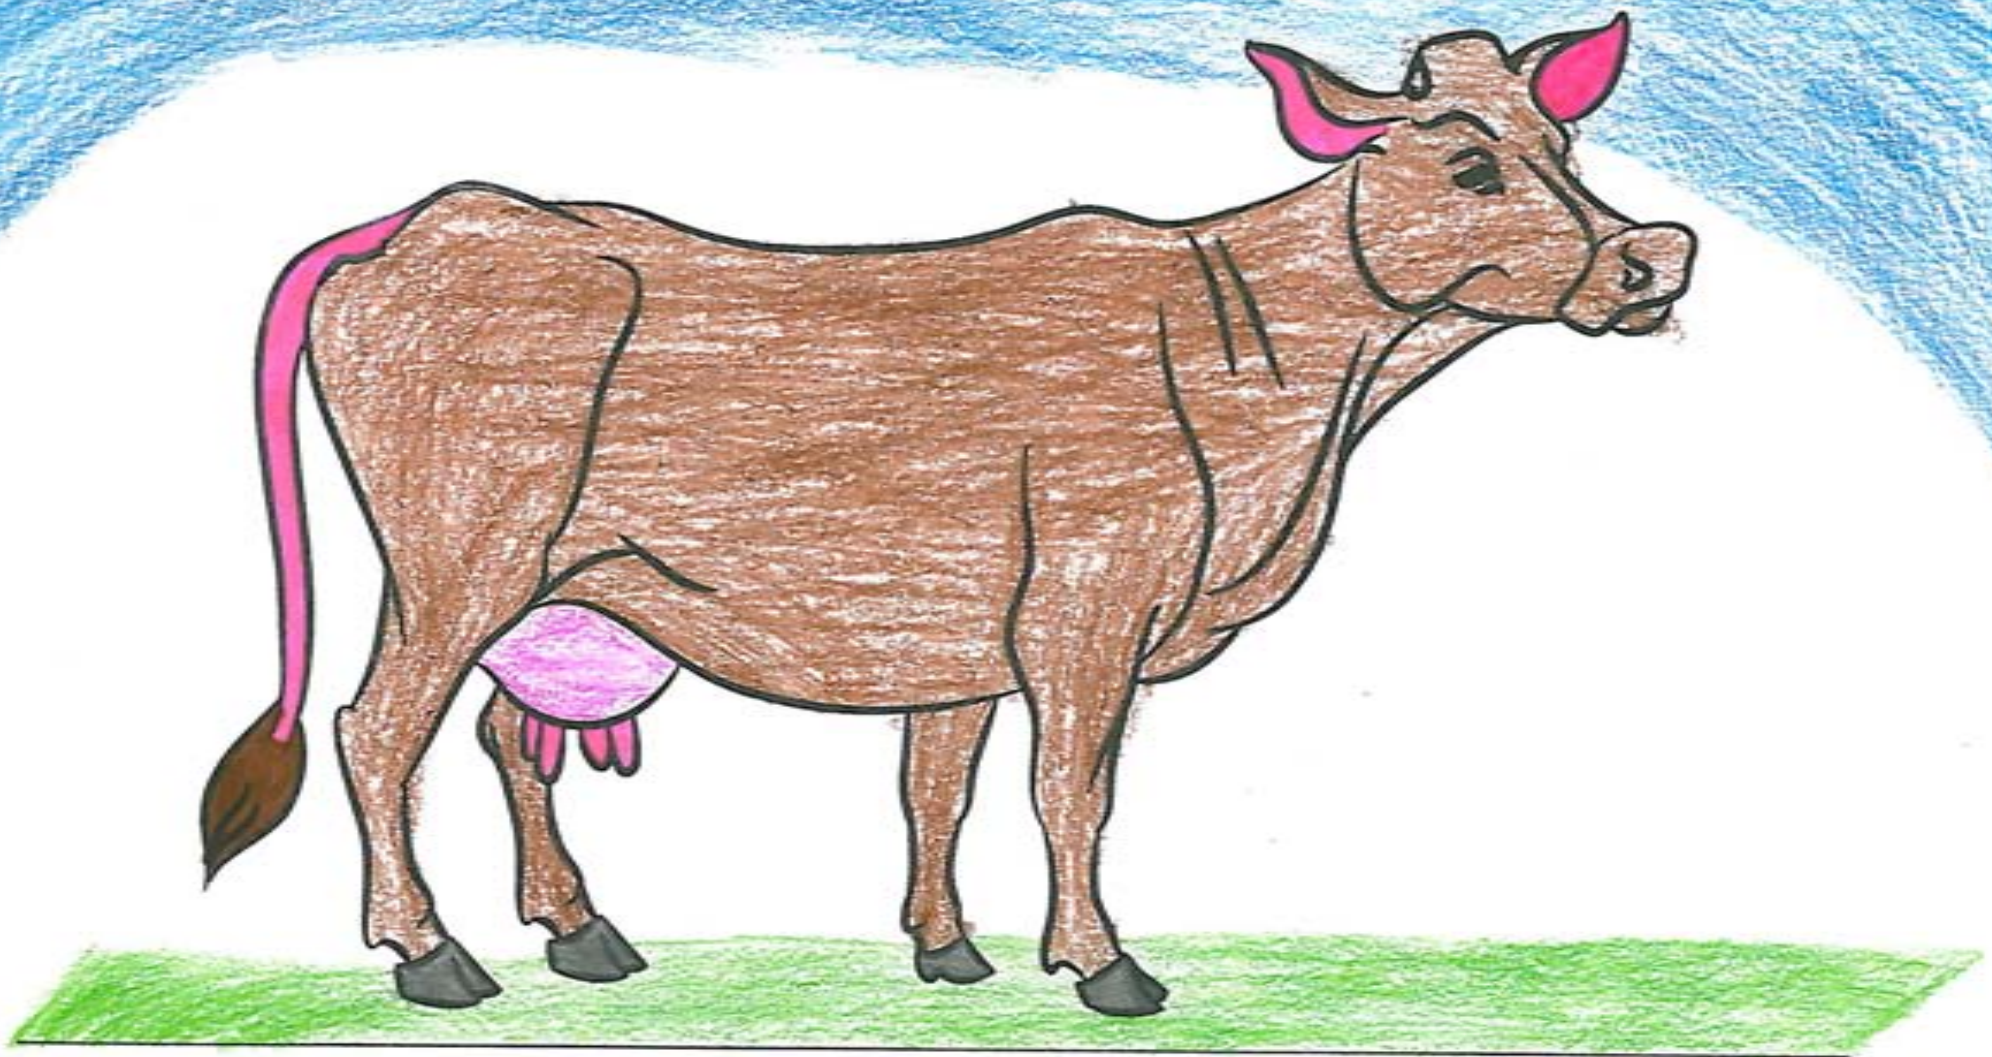

I learned the difference between
low fat milk and fat free milk.
Thank you Miss. Kim for teaching us.

Bulls or cow use poles for seatbelts
and make ten gallons a day.

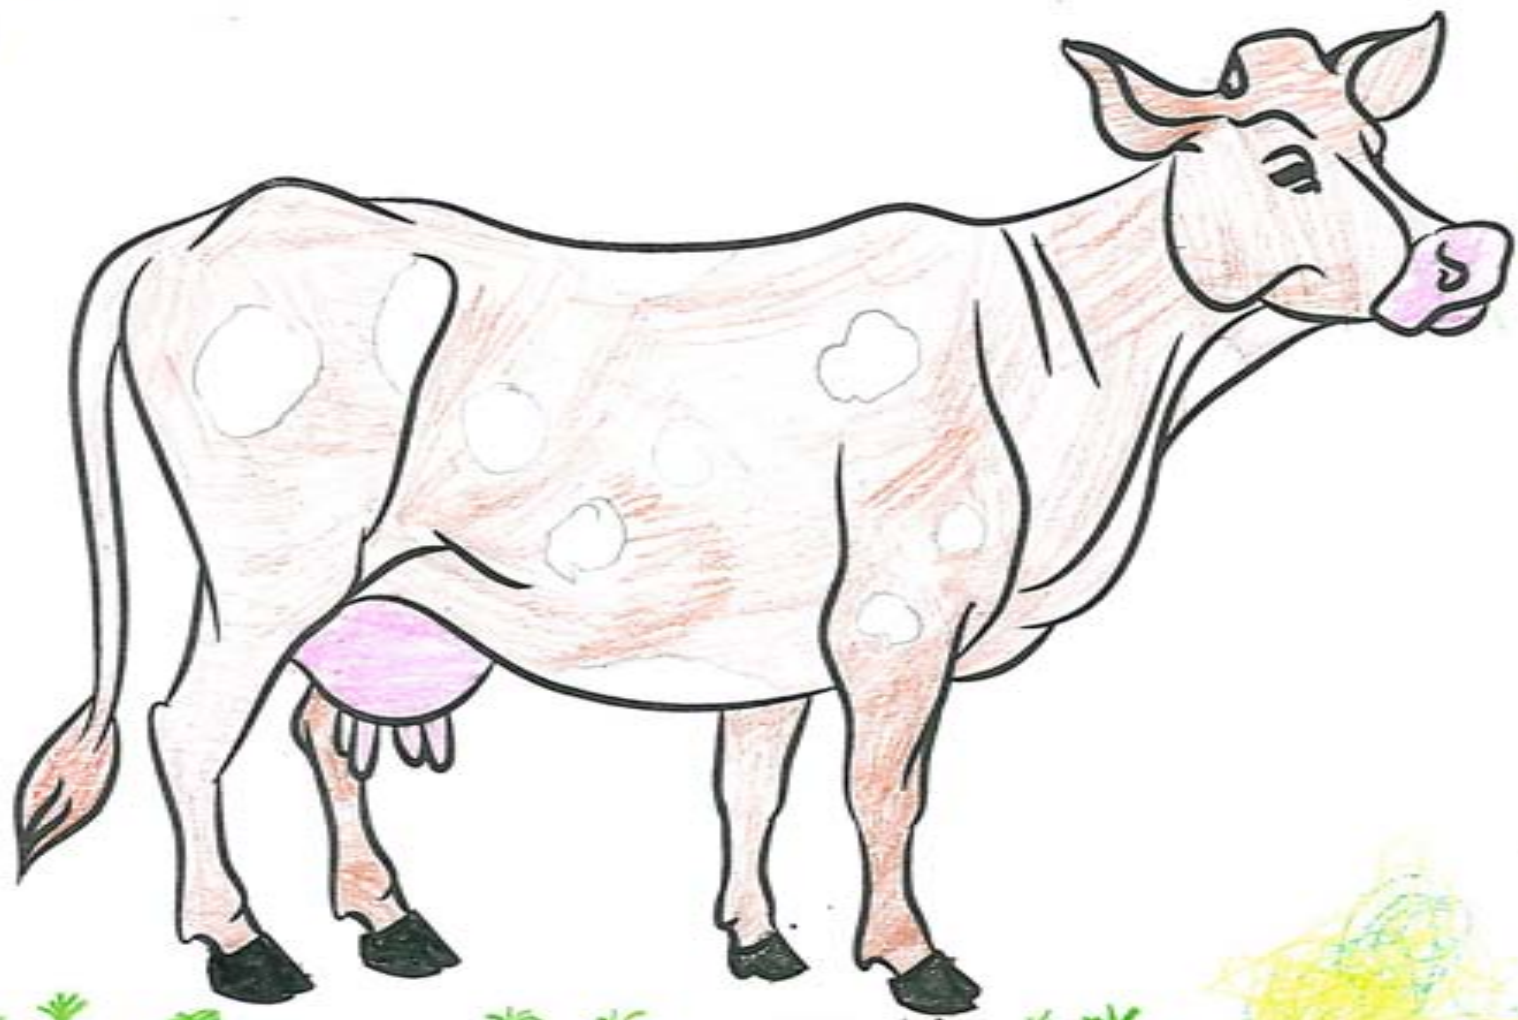

Cows help there calves
by feeding them. A calf
grows a pound a day.

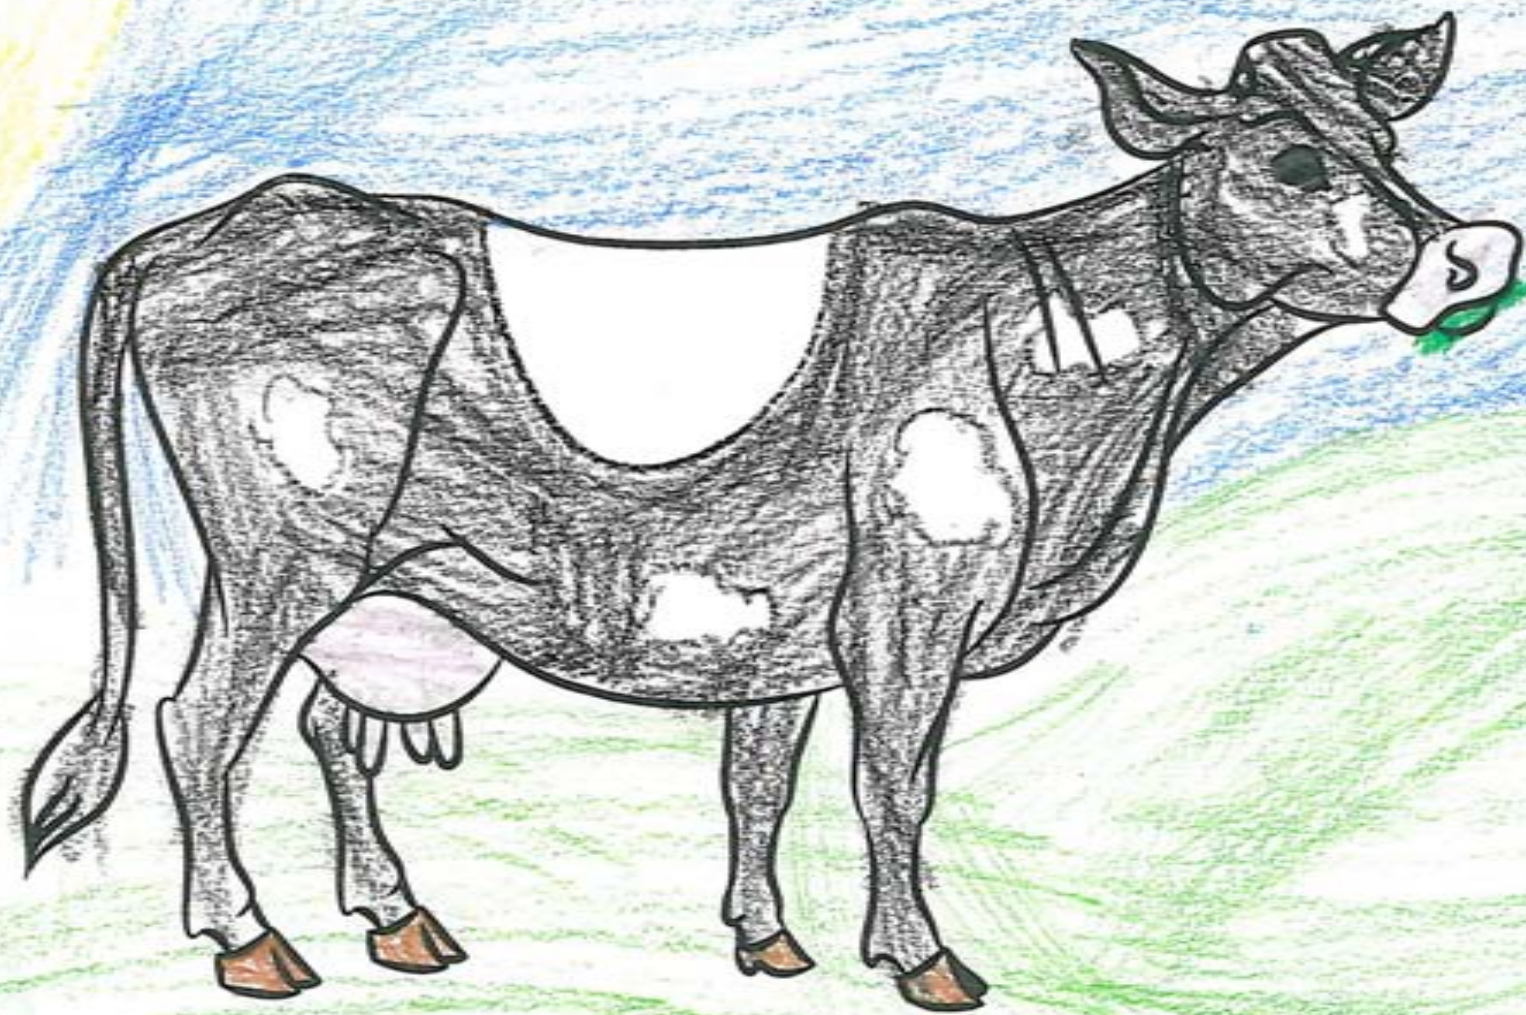

What I learned from yesterday is that if a cow is riding in a
trailer it has a seat belt. The seat belt is to balls.

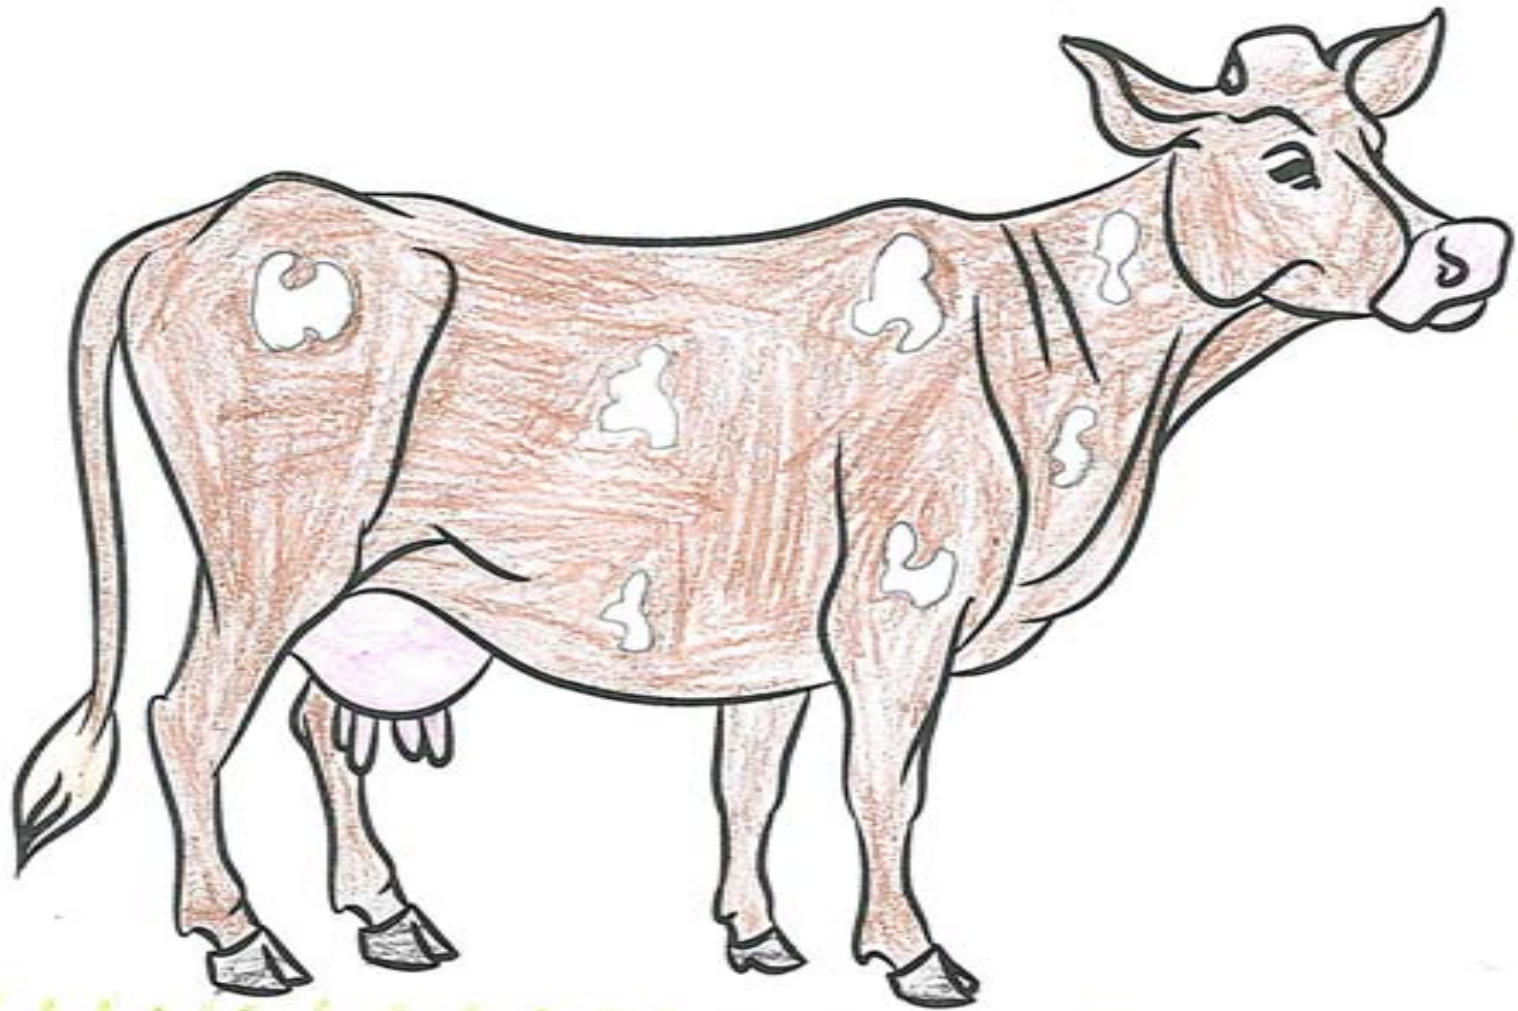

Maidu School

What a fantastic show! I learned that the
cow has to be a mom to provide milk. I
also learned I also learned when they

I really love your performance on cows.
Remember when you said "If the
cow does it's business we clap."

I learned that a cow needs to have a baby before
they can make milk.
